Personal Projects

College Counselling World

~ Finished the web-based project 'College Counseling World' using PHP, XAMPP, and SQL. This project will ease the task of college counseling by managing the data in a dynamic aspect with interactive features in a very user-friendly fashion.

Online Bike & Scooty Rental System

~ Built a fully responsive online website for bike and scooter rentals using React.js, Node.js, and MongoDB. The project provides an excellent user experience that allows efficient vehicle rentals due to real-time data management and intuitively navigable elements.
